Remote Patient  
Monitoring of Lung  
Disease

## LungMgr

Approximately 14.8 million adults have been diagnosed with COPD, and approximately 10 million have not yet been diagnosed.<sup>1</sup> Annual health care expenditures for asthma alone are estimated at 20.7 billion.<sup>2</sup>

WebCareHealth offers a solution for managing your respiratory patients. Through LungMgr, you keep in regular contact with your patients. You can collaborate with them on their care, while remotely collecting real-time data so you can make actionable decisions.

LungMgr by WebCareHealth makes it convenient for you to stay personally connected to your patients, enhances patient satisfaction, creates office efficiencies and tracks reimbursement for you!

1. National Institutes of Health, National Heart, Lung, and Blood Institute (NHLBI). Morbidity and mortality: 2012 chart book on cardiovascular, lung and blood diseases. Bethesda, MD: NHLBI; 2012 Feb [cited 2016 Aug 15].

2. National Institutes of Health, National Heart, Lung, and Blood Institute (NHLBI). Morbidity and mortality: 2009 chart book on cardiovascular, lung and blood diseases. Bethesda, MD: NHLBI; 2009 Oct [cited 2010 Mar 29].

There is no cure for COPD but early diagnosis and treatment are important to slow the progression of symptoms.

LungMgr is the Remote Patient Monitoring Solution that will give your patients the opportunity to engage in their health.

## Continuous care that's more personal.

LungMgr software collects patient-generated health data remotely. That data is available in real-time for you to make treatment decisions. Leveraging this technology with your medical expertise can have profound impacts on your patients.

## Designed to make your office run smoother.

**Improved Care**

**Reduced Administrative Burden**

**Provider Reimbursement**

**Improve Patient Adherence**

WebCareHealth is run by providers and nurses, so we know what it's like to be in your shoes. We're driven to create technology that helps you deliver more personal and more effective care for your patients. After all, that's why we all got into healthcare in the first place.

**Give your lung patients the gift of health. And freedom.**
